

Patient Data Statistics

Generated July 21, 2026 at 7:48 AM · Source: allpatients (active, non-deleted)

Overview

This report summarizes contact and date-of-birth coverage across 13,851 active patient records.

Metric	Count	Share
Total active patients	13,851	100%
Have date of birth (DOB)	2,951	21.3%
Missing DOB	10,900	78.7%
Have phone	13,822	99.8%
Missing phone	29	0.2%
Have email	13,762	99.4%
Missing email	89	0.6%
Have both phone & email	13,753	99.3%
Phone only (no email)	69	0.5%
Email only (no phone)	9	0.1%
Missing both phone & email	20	0.1%

Key findings

- 10,900 patients (78.7%) are missing date of birth in allpatients.
- Phone and email are well captured: 99.8% have phone, 99.4% have email.
- Only 20 patients lack both phone and email.
- A SQL backfill from appointments updated 0 rows — DOB was not stored on linked appointment records for these patients.
- Going forward, DOB can be collected when booking returning patients and saved to allpatients.
